OHSU NW GAAP presents: Regional Symposium on Aortic Dissection

OHSU NW GAAP (North West Aortopathy & Arteriopathy Program) welcomes you to a comprehensive review of the etiology and management of aortic dissection. Faculty from vascular & cardiac surgery, medical genetics, and cardiology will cover topics pertinent to patients with aortic dissection and their families. This symposium will include presentations followed by discussions with questions and answers.

Audience

This event is intended for patients with aortic dissections or aortic disease and their families. Clinicians, students, researchers, and other interested community members are also welcome to attend.

Learning:

At the conclusion of this event, attendees will be able to:

- ~ Know the types and presentations of aortic dissection
- ~ Comprehend the risk factors for aortic dissection
- ~ Understand the basic medical/surgical management for aortic dissection

Accessibility

We are endeavoring to ensure this event is accessible to all. If you need any specific accommodations or have any concerns, please contact us so that we may assist.

Cost

This event is free to attend. Refreshments will be complimentary. Register by September 1, 2023 using the QR code below, or register at: <https://form.jotform.com/232205213035136>
